DESCRIPTIONS OF VARIETIES

Refer to our 1955 catalog for descriptions of varieties. For those varieties not listed in the 1955 catalog, we refer you to The Camellia: It's Culture and Nomenclature, 1954 Edition, published by The Southern California Camellia Society. We can supply copies of this illustrated, 96-page booklet for \$1.25 each postpaid.

R O O T E D C U T T I N G S

For the first time, we are offering rooted cuttings of both Camellias and Azaleas. We feel that growing plants make a somewhat better start and constitute a more desirable and satisfactory purchase, but we are making the rooted cuttings available for those who wish to buy them.

U N R O O T E D C U T T I N G S

For many years we have made a specialty of selling Camellia cuttings and scions for rooting and grafting. Write for our list of varieties which we supplement from time to time with new varieties as they become available.

O R N A M E N T A L S

Prices for ornamentals other than Azaleas and Camellias remain the same as in our 1955 catalog. If you do not have a copy, we will be glad to send you one.

TERMS AND CONDITIONS OF SALE

Terms and conditions of sale are the same as in our 1955 catalog. Please write for a copy if you do not have one.

V I S I T O R S W E L C O M E

You are always welcome to visit us and inspect our 27 acres of lath houses, open field plantings, and propagating facilities. We have a large sales yard with an assortment of practically every type of landscape shrub, plus house plants and patio and garden accessories. We are conveniently located on the new four-lane U.S. 90, just five miles southwest of the Mobile city limits. We are open Sundays October through April.
